

## LONG YEARS AGO

Wednesday, July 20, 1904

A Sawyer-Massey threshing engine for A.B. Schedel has arrived and is being fitted for use.

Tuesday was monthly street fair day. A large number of calves have been listed for sale on that day as well as numerous other articles.

The following party from Berlin, Ont. are visiting in town. J. Y. Shantz, W.E. Shantz, Mr. and Mrs. E. Shantz, Aron Biehn, Martin Bowman and John Nahrgang.

A.W. Cooper was in Calgary this week on business.

Mr. L. Snyder's sister from Berlin, Ont. is visiting here.

The output of butter at the creamery this week was 3250 lbs.

The children of the Evangelical Sunday School were taken out to the rocks, east of town, yesterday and treated to a picnic. They returned home in the evening as happy as could be.

## MOUNTAIN VIEW NOTES

## DIDSBURY JUBILEE QUEEN CONTEST ENTERS 2nd WEEK

Over seventy five friends, relatives and neighbors met at the Barns on Saturday evening on Wednesday afternoon to celebrate the 25th anniversary of Mr. and Mrs. Henry Reuter's silver wedding anniversary. Mr. Pauls, Mr. Jack Neupeld and Mr. Sawatzky spoke on the occasion and brought congratulations from the crowd. Mrs. Peters, the bride's mother, who is over seventy years of age, gave a recitation, and this was followed by one spoken by Ed Peters.

The bride's mother gave them her blessing and wished them many more years of happiness together. A lovely lunch was then served to all on a long table centre by the window.

Out of the district guests were Mrs. Abe Dyck of Chilliwack, B.C., Mr. and Mrs. Kanke, Sardis, Sask., Mr. and Mrs. Dave Remple of Einfold, Sask., Mr. and Mrs. John

One week of the Jubilee Queen Contest has passed and the results so far have been, to say the least, disappointing. The candidates before the public generally, is not aware of the importance of the canvas which they are now displaying.

The entire proceeds of the Contest and of the Jubilee on August 14th are towards the building of a swimming pool as part of the Didsbury Memorial Community Center which will consist of a Memorial Auditorium, a covered skating and curling rink, a swimming pool, ball park, playground area etc.

The committee feels that if the people of Didsbury and district realize the importance and value of these ventures to the children and young people of town and district, the candidates, their sponsors and the many business and child will bend every effort toward making this venture the most successful yet attempted.

Let's pit Didsbury and district on the map. Buy more and more votes from your favorite candidate! Watch the chart in C. E. Reiter's office for the standings of the candidates.

## WHERE'S THAT BALANCED FARMING

A further decrease in hog production in Alberta is shown by a recent survey of the Dominion Marketing Service. All though for Ontario and Quebec estimated marketing for the last three months of this year are expected to be the highest thus far, there will be a higher than in 1945.

In the Prairie Provinces of 30.2% with Alberta showing a decrease of 31.8% from last year's figures.

Indications are that not only have Alberta swine herds been reduced, but that a considerable number of producers in the province are out of hogs completely.

With present crop prospects and with the increase in hog prices, farmers are urged by the Livestock Supervisor, A.J. Charnecki, to consider seriously the advantages of hog marketing. Those farmers particularly who previously spent money on hot equipment might well give thought to this excellent method of marketing their home grown grains. A few extra gills or the good sows originally intended for market, if bred immediately, will produce a litter of pigs which will be well grown before winter sets in. In view of the present demand for quality bacon, Alberta farmers cannot afford to neglect this opportunity to place hog raising in this province on a firm basis.

Remple of Scotchburg, Sask., and Mr. and Mrs. Dombrowsky of Neidpath, Sask.

In view of the relatives were invited to supper at the bride and groom's home.

There seems to be an epidemic of appendicitis in our neighborhood. John Kohut having an attack a couple of weeks ago, John Bruce and Annie Kohut on Friday morning and on Monday Paul Neupeld was admitted to hospital with the same illness. However, we hope they will soon be well again.

Mrs. John Bruce is visiting for a few days with her grandmother Mrs. Shackleton in Olds.

Mrs. H. Remple and Helen left for a vacation at Chilliwack on Friday.

Mr. George Neupeld took a trip to the coast this week.

Mr. and Mrs. Abe Leowen have returned from a trip to Ontario. Mr. Leowen says things are worse down there than here.

Would you like to please explain about the Jubilee queen they are holding in August and also about the tickets which are being sold for Queen.

Thursday is M.V.W.L. day at Mrs. Garnet Tighe's. This is Grandmother's Day and everyone is welcome, children too.

Today is the 25th anniversary of Mrs. Henry Reuter's silver wedding.

## FIELD DAY HELD AT HOME OF ALEX ROBERTSON

An interesting Field Day was held amidst ideal surroundings at the home of Alex Robertson at Cartairs on Thursday, July 4th. Following the program, H. G. Phail, District Agriculturist, acting as chairman, called on the following for short addresses: Mr. Alex Robertson, who welcomed the guests: Mr. N. F. Bell, District Agriculturist for Drumheller; Club Leader, J. Huggins, West Didsbury; R.C. St. John, Cartairs.

After the addresses a delightful lunch was served to about 125 people.

## PIONEER RANCHER OF HARMATTAN PASSES

Mr. John C. Schrader, well known pioneer rancher of Harmattan, passed away on Tuesday afternoon, July 2, after a length illness.

Mr. Schrader was born in Pomerania, Germany and was 14 years of age when he came to America to reside in Clinton, Iowa, where he finished his education and later moved to Battle Creek.

In 1901 he brought his family to homestead in the Harmattan district where he resided until his death.

In the early days he was active in all community affairs and lent his support to any that he could.

He was a member of the school board for over twenty years, director of the Livestock Marketing Board, a Royal Arch Mason, and member of the United Church. He carried on extensive farming and ranching with his sons until ill health forced him to retire.

Funeral chapel on Friday afternoon, July 5th at 2:30 p.m. with Mr. John Wiper and Rev. Elliott of Clinton.

Interment took place in the Olds cemetery with Oscar Johnson, H. C. St. John, Harry Winters, Richard St. John, Alfred Jorshard and Marshall Armstrong acting as pall bearers.

The lovely floral tributes were tangible evidence of the love and esteem of his friends and neighbors.

## MELVIN NEWS NOTES

Mrs. A. Geddes and her two boys of B.C. have been visiting with her brother, Mr. E. Dupont. Emil's father also stayed a few days there.

On Sunday, Mr. and Mrs. Therese St. John of Calgary had dinner at the Dupont's.

Mr. and Mrs. Roy Shaw of Los Angeles are visiting at the home of Mrs. Shaw's father, Charlie Foss and are renewing old acquaintances in the district.

Mr. and Mrs. Ken Waldhoff and baby son of Bed Deer visited relatives and friends in the district last week end.

Melvin lost a baseball game to Reid Ranch at the latter's diamond on Sunday, by a score of 32. Melvin was the only one scheduled game left to play against Didsbury, and is already assured of a place in the playoffs.

There will be a quilting at the next Red Cross meeting to be held at the home of Mrs. Henry Fisher.

More than 1000 people will be there for the quilt, so anyone having used articles of clothing or towels to send, please bring them along.

Mrs. Maud Wilkins and Gordon are spending some time at the Johnston home.

## IT PAYS TO PLAY

Endorsing the old saying about "all work and no play," health authorities in the Department of National Health and Welfare at Ottawa suggests that, in these days, it is not only a personal privilege but a national responsibility, for all to do so to get some fun in life. By playing these games, it is stressed, people of all ages develop self-reliance as well as mental and physical health.

Mrs. John Bruce is visiting for a few days with her grandmother Mrs. Shackleton in Olds.

Mrs. H. Remple and Helen left for a vacation at Chilliwack on Friday.

Mr. George Neupeld took a trip to the coast this week.

Mr. and Mrs. Abe Leowen have returned from a trip to Ontario. Mr. Leowen says things are worse down there than here.

Would you like to please explain about the Jubilee queen they are holding in August and also about the tickets which are being sold for Queen.

## Train Crash Kills 13 Stampede Horses

## STANDING OF LOCAL ENTRIES IN CALF CLUB SALE

The following are the standings of the local entries in the Cartairs Calf Club Sale held at Cartairs. Last week a general report of the sale was published and the following classifications are for the West Didsbury Club alone.

1st — Vera Blane, 2nd — Donald Blane, 3rd — Donald Bell, 4th — Ken Worthington; 5th — June Kilnack; 6th — Clarence Luft; 7th — Dennis Worthington; 8th — Tom Swanby; 9th — August Luft; 10th — Glen Luft; 11th — Marvin Luft; 12th — Leonard Luft; 13th — Allen Luft; 14th — Gert Luft.

In Showmanship for the West Didsbury Club the following are the standings: 1st Donald Robertson; 2nd Tom Swanby; 3rd June Kilnack.

The Calf Club are to be congratulated on their fine showing at the sale.

## NOTES FROM THE WEST

The Elkhorn Willing Workers met at the home of Mrs. K. Konshuh yesterday, when it was decided to make a community club. It was also decided to hold a picnic on Friday afternoon, August 9th at the river crossing in M. Campbell's place, members to bring basket lunches which will be served at 5 o'clock. The next meeting will be at the home of Mrs. C. Rude in September, unless a special meeting is called in August to a quill.

Among those visiting the Stampede last week were Mr. and Mrs. K. Krebs, Mrs. O. Krebs and Jean and Howard.

Mr. and Mrs. Gordon Befus were up from Calgary over the weekend.

Mr. and Mrs. R. Curry and Mr. and Mrs. F. Curry of Red Deer were supper guests of Mr. and Mrs. A.L. Hoag on Sunday.

Mr. and Mrs. J. Stevenson of Westcott spent the weekend with the latter's parents, Mr. and Mrs. H. Papke.

Miss Ethel Papke is home just now as Dr. and Mrs. Clarke have gone to the coast.

Clayton Johnson was a business visitor in Calgary last Thursday.

Gravel was put on the main street of town last Saturday, smoothing out a considerable number of potholes.

Stan Gole and Maurice Wardrop were Calgary visitors Wednesday.

## STILL TIME TO PAINT UP

**Orange Bread**

*Serve with*  
"SALADA"  
TEA

1/2 cup dried yeast  
2 1/2 cups baking powder  
1 1/2 cups sugar  
1 1/2 cups flour  
1/2 cup chopped pecans  
Sift dry ingredients and pecans together. Add milk, melted butter, orange rind and marmalade. Pour into greased pan. Stand lightly with dry ingredients. Bake in 350° oven 1 hour.

## A Powerful Force

**SINCE THE FIRST ATOMIC BOMB** was dropped on Japan the attention of the world has centred a great deal of the time on the potentialities of atomic energy and its possible effect on the future. The discovery of this new and powerful force was one of the great milestones in history and thoughtful people everywhere realize that it has brought a new era into the affairs of man. Used as a weapon of destruction it could most completely wipe out the civilization which has been built up through the centuries and this possibility has added to the earnest desire felt in all countries for the elimination of differences between nations and the assurance of lasting peace. Never before in the history of the world has the alternative to peace been so terrifying.

**The Centre Of Many Problems** The Canadian Institute of International Affairs recently released an interesting pamphlet in which the relation of atomic energy and world government was discussed. The writer is Dr. Leopold Infeld, a noted Polish physicist and mathematician, and a former colleague of Einstein. He is now a professor of mathematics at the University of Toronto. Dr. Infeld points out that atomic energy is a problem that is now, and will for many years to come, be the centre of all technical, social and economic problems. This is a broad statement, but it is already clear that atomic energy is in some way connected with many of the most pressing problems of our times. The possibilities of its practical applications are many, and they may in time revolutionize many of our present practices and be of great benefit to all mankind.

**May Mean Either Life or Death** When atomic energy is applied to industry, Dr. Infeld suggests that the world will face a revolution much more far-reaching than that which came with the invention of electric power. The full development of atomic power suggests factories run by control machinery only, which in turn mean a reduction in the amount of labor required, and a consequent far-reaching reduction in material changes. Such uses as that at present appear to be remote, and its application to war are much more real. Problems of international relations are now more important than they have ever been before, for as Dr. Infeld concludes, the results and compromises achieved in this field may mean the difference "between life and death, not to one nation alone, but to our entire planet."

### Living Longer

#### Life Expectancy In The United States Has Greatly Increased

In 1944, for the first time in our history, the average length of life (expectation of life at birth) of the American people, including military personnel within the country, exceeded 65 years. The actual figure, 65 1/2 years, is almost 16 years greater than at the beginning of the century.

As a result of this truly remarkable gain, the person of age 20 now has, on an average, as many years of life remaining as the new-born child had in 1900. Even more striking is the fact that when added to the average life expectancy of the earliest three-quarters of the babies would attain age 25, under present conditions three-quarters of them will reach age 57.

For white females in 1944, the average length of life was 65.95 years, while females who have attained their first birthday averages 87 years, or an average, to age 71. For those who have attained their 49th birthday, the figure is 75 years.

The increase in longevity among white females in 1944, as compared with 1913, was two-thirds of a year, or more than ten years over the average figure for 1919-1921, and almost 18 years over that for 1900-1902.

Although white males in 1944 reached a high level of 63.55 years in average length of life, their record was a little below the peak attained in 1942. The length of life in the eight years since the war has slightly set back the relatively high mortality from accidents among men in the military services. The gain in average length of life among white males since 1900 amounted to 15 1/2 years—Metropolitan Life Building.

### Reward For Inventors

#### For Use During The War Of Designs And Processes

A Royal Commission is being set up to decide what awards shall be given to inventors for use during the war of their "inventions, designs, drawings or processes" by British and Allied Government.

Later the Commission will arrange the conditions for submitting claims. Government employees will not be excluded from compensation for inventions but their contributions will be judged on the same footing as outside work.

American royalty rights on inventions will also be taken into account.

### EXAMPLE TO WORLD

#### British Commonwealth Has Experience For All Who Care To Learn

Mr. Vincent Massey, late Canadian High Commissioner in Britain, in his last public address before giving up that post:

"The British Commonwealth is today an example to the world which is running a race with catastrophe and which is looking so desperately for grounds of mutual understanding. The Commonwealth has reservoirs of experience for all who care to learn from it."

One of the things which we can pass on to the fledgling United Nations is that of patience. The harmony of freedom and co-operation which we enjoy has not been won without setbacks and failures. Another hard lesson which our example has to offer is that some nations can be built successfully only when they are built on aspirations. No such bond yet exists between members of the United Nations; they must be given every encouragement to agree. That will take time, and until then the Commonwealth cannot relax its vigilance.

There is a great inheritance which all of us in the Empire share has been fed from many streams. But the source from which our ideals have been spread all over the world has been Britain; and although her partners are beginning to undertake larger tasks Britain is still first and unique.

How urgent a need there is today for all that she can offer the world in leadership and guidance! If civilization would have perished in 1940 without British valor and British skill—as it would today—without the qualities which belong to Britain, it will just as surely lose its way.

#### FOR INDIAN NAVY

Three cruisers of the famous "Leader" class that defeated the pocket battleship Graf Spee in 1939 will be acquired by the Royal Indian Navy with the help of His Majesty's government. Indian personnel for manning the warships will be trained in the United Kingdom.

#### RENEW WATER IN LAKE

LONDON—Eight million gallons of water were needed to fill St. James' Park lake—emptied during the war.

### Drama Festival

**I**s to be revived. After being dormant during the war, the Dominion drama festival, a war casualty, is to be revived. There are to be regional contests early in 1947 to choose companies which will participate in the national finals at London, and it is to be the first time ever that one-act or three-act plays may be entered.

The amateur theatre is an enterprise decidedly worth cultivating, especially in these times when most people, and unavoidably, get their drama from the film. Every city has its gifted amateurs willing to give their time and talents to the cause of the drama, and we have in Ottawa how greatly our Little Theatre group have contributed to culture and entertainment. Ottawa Journal.

### Canned Meat

#### Canadian Shipments Overseas Have Been Almost Doubled

Canada's overseas shipments of canned meat during the first five months of 1944 have been almost double the amount sent to the United Kingdom and to UNRRA in the same five-month period of 1943, according to figures released by the Canadian Meat Board.

The board's report for the week ending June 1 shows that since January 1 of the current year Canada has shipped abroad a total of 62,572,214 lbs. of canned meat. Of this 6,000,018 lbs. were consigned to France and Belgium and the remaining 42,216,050 lbs. went to UNRRA authorities for the relief of the famine countries.

## History Of The Old University Town Of Cambridge Appears To Be Lost In The Mists Of Ages

(By L. Norman Smith in Ottawa Journal)

TO THE much-bombed cities of Plymouth and London the old university town of Cambridge is a striking contrast. There were no "raids" as such on Cambridge, though 40 people were killed by occasional hit-and-run visits by single enemy planes. Here the old buildings stand undamaged by other than the ravages of Time—for example, the Church of the Holy Sepulchre built in 1120 and the massive King's College Chapel begun in 1446.

Here, too, is the old pre-war atmosphere more nearly intact. The quiet of a college lawn defies change and the little river Cam like a stream of time. The old buildings stand under great shade trees or behind college walls much as it did 100 or 500 years ago.

These abiding features have their influence. A town where students walk or bicycle the streets in black gowns or to or from the school or the playing fields will not yield easily to modernity.

The Canadian universities are pretty much a unit and are visible as a single group of buildings, finds Cambridge vaguely but charmingly spread about. It is rather a collection of colleges—some hard by one another so that the student can walk together and gets lost among the winding lanes, through Tudor archways, and others one finds by surprise ten blocks away, tucked behind a string of shops but no less comfortable in their own seclusion of stone walls and whispery gardens.

The fact is that at no time did anyone say: "Let us start a Cambridge in the west." The Canadian universities in the mists of the Cam and Fen rivers but it is thought that some learned man set up a home and a tutoring business and that others followed suit until by the time of Henry III in the 13th century there was a corporation of educators so virile and courageous that they in turn were beaten back with the townspeople about taxation and regulation. Eventually the University found its form and place.

Much water has gone under the Cam bridges since then (though not so very much, for this storied stream averages about 100 feet in width). The Cambridges are a strange combination of young and old. The traditions and the buildings were aged before Canada was settled; the students along threw off the years, their high pitched voices seeming boyish again rather than "student and gentle-

One gathers though that these long-haired lads in their "uni-form" of impressed flannels and a very worn tweed jacket, plus a ragged black gown over their shoulders or slung like a wet tow under their arm, are not as innocent as they seem. I noticed barbed wire about some of the college walls and mean picket fences close by window form.

There is relaxation of course—cricket, football, water polo, swimming, golf, tennis, rowing and all that. Yesterday I went to see a "major league" of the game in the Cambridge and Middlesex. A cricket match on a town field is a far cry from our highly organized sports fixtures. There is no entry fee, there are virtually no stands, there are no people yelling to sell food or drink. You simply walk to what looks like a good spot to sit on the grass or to a single row of benches which may not be all filled. From then on all is quiet.

Out on the field Cambridge was at bat but the fanned figures seemed singularly unbothered. Suddenly people clapped and I was startled by this rude sundering of the peace. G. L. Willatt, the batsman, had walked up to me. With that we resumed our quiet. I thought of this and that, went over next week's plans, listened to the chatter of some young prep school boys. I may even have dozed a bit for it was nice there in the sun.

After a bit, Willatt was still at bat facing a fast bowler named Grey who can run 20 yards before hurling himself the last two in one leap and releasing the ball at a terrific pace. It didn't seem to strike fear into young Willatt's heart, however, and he scored repeatedly by simply tickling the ball with his sped by R. W. V. Robins, the famous batsman who captains Middlesex, placed five men in the slips to put a stop to this, but Willatt was untroubled. At 4:14 p.m. he had reached 98 and the crowd was now actually tensed. A century in cricket is an achievement.

The players were on their toes and only birds dared the silence. At 4:15 the umpires called time for tea! So there you are, Willatt still at 98. Should tea be postponed just five minutes to let Willatt get over the jamp or fail? "Tea, Sir, is always at 4:15." It was a 4:15, but I'm glad to add that a half hour later Willatt returned full of scorns and tea water and beat up a handsome 112 before being caught out. Lord Inverchapel was right, but it is a pleasant game and I'm not sure we don't lose sight of leisure and pleasure.

### World Health Meet

Canada Elected To A Place On The Nine-Power Committee

Canada was elected to a place on a nine-power committee of the world health conference set up to draft rules of procedure for the proposed world health organization, the "chosen instrument" of the United Nations to guard the health of the world in the atomic age.

The Canadian delegation, Ottawa, one of four to the Canadian delegation at the 67-power conference which unanimously chose as president Dr. Thomas Parson, Surgeon General of the United States, will represent the Dominion in the new organization. Its report will be the basis of the discussion at the conference.

The conference will be held in Geneva, Switzerland, in October.

After tea and after personally coaching Willatt beyond his 100, I left for Grantchester. This is really just another very charming little country village set in English fields, but Rupert Brooke made it of the consciousness of all little villages and the pilgrimage to it has lasted decades so it is now a genuine shrine.

As we walked through the village, I saw a man in a long coat.

The health conference, called by the United Nations economic and social council, is expected to complete its work in November. The Canadian delegate is Walford Minister Claxton who also is the Dominion's representative on the 18-power economic and social council.

Following a meeting of the conference, Mr. Claxton said its work was proceeding smoothly. All delegates "appeared to be agreed on the necessity of bringing the world health organization into existence at the earliest possible moment."

They said only to accentuate the solid and unreaching character of the place. Cambridge has "just grown," more lovingly than the tightly manicured green of a well kept cemetery.

There wasn't a soul around the church, the only evidence that tourists have married the place. It was luck, then, that I ran across a memorial to the 17 men of the village who died in the last war. Rupert Brooke's name was carved among them, in its alphabetical place.

The sun was all about. Grantchester few cycles, the church, cottages and farmhouses that rather dominate a broad plain of fields. A farmer or two pottered about, unburied. I too was unburied as I left Grantchester to walk over fields and along the river Cam back the three miles to Cambridge, the old university town where I could glimpse leaves through the trees. The elm clumps greatly stand."

I said "towers," but Cambridge is really a spireless city, clings close to the ground and the rivers. There are a few steeples of the old built-to-last and square-top style of from the 11th to 15th century, but

The Alps hospice founded by St. Bernard, and famous for its life-saving dogs, has been in existence since about 1081.

BRISBANE, Australia.—Not "Pins in Boots" but dog in boots are a familiar sight in outback Queensland where drivers tie leather covers over the pads of their sheep dogs to protect them from burns, thorns and the needle-sharp spinifex. Saddles are kept busy.

### The Right Time

British Railway Companies Decide Not To Have Clocks Fast

Most people are optimists in the sense that they like to think they have plenty of time to catch their train. For years railway companies have tried to correct this amiable weakness by keeping the clock outside the station a minute or two fast. Even when the too casual traveller has seen the platform or the concourse technical hand, the consciousness has been aggravated with a mixture of relief and irritation that there was no such desperate hurry after all. He need not have been so cross with the old lady in front of him at the ticket office who took an intolerably long time to sell him a ticket.

Now the most casual railway companies have decided to abandon this time-honored practice and in future so it is announced, all the clocks of the L.M.S. and L.N.E.R. will show the right time. What has prompted this lenoclastic procedure we are not told. It may be that the time is now out of date and no longer deserves anxiety, or that the real incurable disease is done much earlier, when the traveller declines to leave his house at the proper time. Again research may show that this tiresome traveller if given an inch persists in taking an ell.

Most people are not so patient. The Great Court of Trinity College, for example, has an almost tristick breathing and a character of the place. Cambridge has "just grown," more lovingly than the tightly manicured green of a well kept cemetery. There wasn't a soul around the church, the only evidence that tourists have married the place. It was luck, then, that I ran across a memorial to the 17 men of the village who died in the last war. Rupert Brooke's name was carved among them, in its alphabetical place.

There was an old woman in the centre who was the only person in the centre is in the centre of that side; and the fountain in the centre is in the centre.

A thing like this gives one, as the Deacon would say, pause to think. Is our old world precision, in angles and in all the other things we are seeking? Cambridge and Grantchester, and the proctor's hand-writing note, have a way about them. And even Willatt proved there's no harm in stopping for tea.

#### BOTH SURPRISED

ONTARIO, Ont.—Surprises like practical jokes sometimes backfire. Mrs. J. C. Smith, a widow, left one morning icy air to make a surprise visit to her daughter in Sainte-Marie, Ont. The next day, the daughter, Mrs. Gladys Brown, who had also been imbued with the surprise spirit, arrived in this city by rail.

#### BOOTS FOR DOGS

BRISBANE, Australia.—Not "Pins in Boots" but dog in boots are a familiar sight in outback Queensland where drivers tie leather covers over the pads of their sheep dogs to protect them from burns, thorns and the needle-sharp spinifex. Saddles are kept busy.

BRISBANE, Australia.—Not "Pins in Boots" but dog in boots are a familiar sight in outback Queensland where drivers tie leather covers over the pads of their sheep dogs to protect them from burns, thorns and the needle-sharp spinifex. Saddles are kept busy.

### Flood Waters Follow Tornado At Windsor

Scenes almost required swimming or boat travel when the Erieau marshes were flooded after the dyke burst on Rondeau Bay. Here, Miss Catherine Collins visits a neighbor. Damage to the onion crops will run into millions, total ruin.

Bride and groom of one week, Edward and Betty Sroksz, were marooned in their home when the dyke burst, flooding the Erieau area. Betty (left), holds "Moses", who was strafed with them. Edward drinks coffee after they were rescued by his brother.

## New Farming Technique In The West Has Resulted In Overcoming Disadvantages

In a recent radio address on the occasion of the 60th anniversary of the founding of the Dominion Experimental Farms Service, Dr. E. S. Archibald, Director of the Service, reviewed the expansion work of the Farms and the other services of the Dominion Department of Agriculture, in bringing Canadian agriculture to the important position it holds today, when scientific principles and techniques, unknown in 1886 at the inauguration of the Service, are now more or less matters of routine application in the field of farm problems.

In the course of his talk, Dr. Archibald touched on some of the aspects of the work in the past ten years, between the 50th and 60th anniversaries. Ten years ago Canada was emerging slowly from the great depression. Low prices for farm products, aggravated by increasing production, in relation to demand, affected agriculture in every community. In the Prairie Provinces conditions were particularly critical.

There, a period of drought years was causing crop failures and widespread soil drifting, while the spread of rust diseases threatened with extinction a large sector of the nationally important wheat-growing industry. The Prairie Farm Rehabilitation Act mobilized the facilities of the Experimental Farms to deal with these and related problems. In the P.F.R.A. initiated by this Act, the Farms proceeded to secure the wholesale adoption of a series of farm practices derived from nearly 50 years of research and experimentation which would enable them to continue crop production despite severe natural hazards.

Drought is a recurring hazard of prairie agriculture. There is, of course, little to be gained by increasing rainfall, but the adverse effects of drought can be reduced by the well-known moisture-conserving practice of summer-fallowing. By 1936, the Experimental Farms had thoroughly tested the various methods of summer-fallowing and, a small number of farmers who had carefully explored the fundamental principles of soil moisture conservation, had adopted this technique. One of the main causes of prairie failure, however, is the inherent tendency of prairie soils to drift under winds. This tendency is naturally increased by the practice of summer-fallowing. Ten years ago, a succession of drought years with resulting crop failures plus the loss of soil, soil-borne organic matter through the destruction of grain production had created ideal conditions for widespread soil drifting. The problem with which the Experimental Farms was faced was to devise and apply methods of soil conservation which would not only stop soil drifting but maintain the practice of summer-fallowing. Partly through demonstrations, but largely through the co-operative efforts of farmers organized in Agricultural Improvement Associations, the Experimental Farms were successful in securing the general application of such measures as strip farming, trash cover, and rough tillage to bring the drifting problem under control. As a result, prairie agriculture has been furnished with what amounts to a new technique of farming which should render future repetitions of dust storms avoidable.

### New Magnetic Device

Makes It Possible To Conduct Prospecting From Plane

Magnetic devices have been so sensitized that they will detect, from a plane flying at 200 miles an hour, magnetic variations caused by the presence of iron ore, 1,000 tons of iron ore lying 100 feet or more below the surface of the soil.

An instrument of this kind could be of enormous use to both oil and metal companies. It could provide rapid, cheap, comprehensive surveys to detect salt domes, outline indications of oil-bearing zones, and sub-surface orchards or structures favorable to ore. It could also record magnetic variations beneath shallow waters off-shore, thus indicating likely coastal spots for oil—Northern Miner.

#### POULTRY DISEASE

Blackhead is a serious disease of turkeys, and, if not watched carefully and immediate steps taken to control it, can quickly wipe out an entire flock. Because barnyard hens may be carriers of blackhead, the turkey flock should never be allowed to mix with hens.

#### KEEPING YOUTHFUL

NIAGARA FALLS, Ont.—Henry Krahling, 86, has been a tailor since he was 15, and in business here since 1913. But he refuses to retire, despite his financial independence, because he says it would make him feel like an old man.

#### DEARLY BOUGHT

Freedom of the press was been dearly bought—the first newspaper issued in North America, appearing September 25, 1690, was suppressed before the second issue could be circulated.

### Walking Is Quicker

Arranging For Taxi In Paris Takes Too Much Time

Here is how you go about getting a taxi in Paris today:

You go to the precinct police station and tell the desk sergeant that you want a taxi. You must then show your identification papers proving that you are entitled to one.

If you pass that nerve-wracking test, the sergeant calls for a cab, which comes to the police station from wherever an available can happens to be. Meanwhile, the meter is running and in addition to your trip you have to pay for the driver's run to get you.

If you catch a cab, not the meter ticks off. The fare comes before you even get into this ancient chariot. When you do, you pay the cabby where you want to go, which is duly and solemnly entered upon one original and two carbon copies: one is for the police, one for the driver and one for police headquarters.

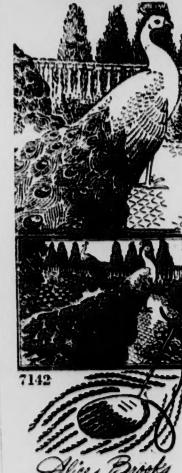

This arrangement usually requires a minimum of an hour during which time, of course, you could have walked to your destination.

### Proved Effective

Three Feet Of Concrete Protection Against Atomic Bomb

Three feet of concrete is protection against the type of atomic bomb dropped on Japan, says Dr. Vernon R. Mason, of the University of Saskatchewan, Canada, who who witnessed the effects of the bomb dropped on Hiroshima. He told a civic group that 22 telephone operators who fled to a concrete shelter when the atomic-laden B-29 plane approached, were uninjured although their dugout was directly under the main blast area.

## WEDDINGS

GOODING-SYDNER

The Mennonite Church in Didsbury was the scene of a pretty wedding on Wednesday, July 10th at 2:30 p.m., when Miss Ethel Snyder, youngest daughter of Mr. W. H. Snyder, was joined in marriage to Mr. Fred J. Gooding.

Rev. D.C. Eby performed the ceremony assisted by the bride's brother, Rev. Oscar Snyder.

The bride entered the church on the arm of her father to the strains of Lloydminster's wedding march, played by Miss Jean Farrell of Calgary.

The bride looked charming in a model of white sheer with floor-length veil held in place by a coronet of red rose buds. She carried a bouquet of American Beauty Roses. Her only ornament was a strand of pearls.

The bride's only attendant was her sister Anna, who chose a floor-length model of blue sheer with matching three-quarter length veil, held in place with a coronet of roses. She carried a bouquet of pink carnations.

Mr. Arthur Gooding attended his brother and Misses Stanley Smith and Charles Louder were ushers.

During the signing of the register Miss Jean Farrell played "I Love You Truly." The bridal couple left the church to the strains of Mendelsohn's "Wedding March."

A reception to some sixty guests was held at the home of Mr. and Mrs. Alfred Snyder. The bride's table was centred with a three-tiered wedding cake. Pink and white carnations with roses of red and white peonies mostly decorated the room.

The usher attendants were Miss Helen and Miss Jean Farrell, Misses Smith, Gladys Luft, Lois Krebs and Norma Cowitz, Mrs. Krebs and Mrs. Schellberg, but the less.

For travelling the bride chose a tailored dress of aqua green with white accessories.

The happy couple left for a short honeymoon to Banff, and on their return will reside at the groom's home east of Didsbury.

## BULLIS-HOLUB

King United Church in Calgary was the scene of a pretty wedding on June 23rd at 4 o'clock when Anne, eldest daughter of Mr. and Mrs. J. Holub of Didsbury, became the bride of Mr. Frank Bullis, eldest son of Mr. and Mrs. J.A. Bullis of Fernie, Rev. J. Ry Brown officiated.

The bride, given in marriage by her father, wore a gown of white marquisette fashioned with a sweetheart neckline, long lily-pointed sleeves and long long white pointed skirt and a full-length hemline. Her only ornament was a gold cross and she carried a bouquet of deep pink roses.

The bridesmaids were Minnie Holub, sister of the bride, wearing a knee-length gown of blue sheer; Miss Alexandra Boris, cousin of the bride, who wore a pink marquisette. They carried bouquets of carnations.

Mr. John Holub was best man and ushers were ushered to their seats on Mr. Ernie Kinney of Calgary and Mr. Riley Moon of Didsbury.

Miss Joyce Buir of Didsbury sang "Because" during the signing of the register.

After the ceremony a reception for 50 guests was held at the Avenue Grill, where the bride's table was decorated with a three-tiered wedding cake and pink-colored candies.

Later Mr. and Mrs. Bullis left for a short honeymoon, the bride travelling in a blue-grey dress, a green dressmaker suit with black accessories and carried a white sheer coat.

Out-of-town guests included Mr. and Mrs. E. Gooding of Didsbury, Mr. and Mrs. S. Kolyas and Ronald of Castries. Mrs. L. Cooper of Red Deer, Mrs. Clara Hunt, Mr. and Mrs. George Brown and Mr. and Mrs. W. Beatty of Nibaldo and Mr. Frank Sharrig of Lethbridge.

## AT YOUR SERVICE

In 1886 — 60 years ago — the Dominion Experimental Farms were founded. Starting with five farms the System has since been extended to 34 farms and stations and 210 illustration stations. This System, the largest and most comprehensive of its kind in any country, is maintained, with the other Services of the Dominion Department of Agriculture, for the promotion of agriculture and the national economy of Canada.

As a result of the work carried out in the past by all the Services of the Department in co-operation with the provinces and agricultural colleges, a much greater measure of stability has been given to farming in the Dominion.

Now that the war has ended all the Services of the Dominion Department of Agriculture — Experimental Farms, Science, Production and Marketing — visualize a broader and fuller program of usefulness to the people of Canada. The facilities of these Services are varied and extensive. Everybody in Canada is invited to take advantage of them freely. The Department is always ready to assist in any way in the advancement of the basic industry in Canada — Agriculture.

Minister

DR. G. S. H. BARTON,

Deputy Minister

## ADJUSTMENT OF FARM MACHINERY

Over 40 per cent of Alberta farmers operate one-way discs, but unless these discs are properly adjusted the work done will not only be unsatisfactory but may be the means of destroying soil fibre and opening the way for increased soil drifting.

At the tillage machinery field days being sponsored by the Alberta Department of Agriculture, expert advise is given on the proper adjustment of one-way discs as well as other machinery. Wherever convenient, farmers should attend these field days. In any event they should get expert advice on the proper adjustment of implements.

## NO GRASSHOPPER INVASION

Something serious has happened to the grasshoppers, and the anticipated invasion is definitely off. The Lethbridge Entomological Laboratory, which continually forecast serious grasshopper trouble this season, now states that only a scattered few of the hoppers can be found, even in areas known to be thickly planted with grasshopper eggs.

## DOMINION ROYAL

There's No Finer Tire Built!

A pretty wedding was solemnized on June 29th at the St. Andrews Presbyterian Church, Macleod when Gloria Frances, only daughter of Mr. and Mrs. Frank Brown of Peirce became the bride of Charles Orville Brown, son of Mr. William Snyder and the late Mrs. Snyder of Didsbury.

The bride, given in marriage by her father, wore a floor-length gown of white jersey and a chapel veil was held in place by a wreath of orange blossoms. She carried a bouquet of red roses and her only ornament was a necklace of pearls.

Mr. and Mrs. Gilmore, parents of the bride were the maid of honor and Miss Maycie and Miss Theresa Murphy as bridesmaids wearing pink and blue floor-length gowns with matching headresses. They all carried orange bouquets. The maid of honor was supported by her brother, Alton Snyder of Castries. The ushers were George Brown.

The bridegroom was attended by his cousin, Andy Bell, and Lynn Hunter, Arnold Sherrick, Milford Clegg and Alford Cook who were ushers. Mrs. Arnold Sherrick played the wedding music.

The guests gathered at the Mountain View Bible School for the reception. The dining room was beautifully decorated in pink, blue, yellow and white. Rev. C.J. Hartman officiated at the ceremony, while three solo solos were rendered by Mrs. Fraser, Ward Sherrick and Mrs. L. Suder. Mrs. Hallman and Mrs. L. Hunter served tea while a full lunch was served to 125 guests.

After the meal, the bride and groom

were seated at the head of the table.

Ruth and Raymond left for an extended trip to the coast.

## WESTERDALE NOTES

The Westerdale Willing Workers met at the home of Mrs. Herbert on July 10, with 13 members present. Roll Call was answered with "Where I would like to spend a holiday." After a short business session, it was agreed that we make a competition drawing for a 10 year old girl, using Phyllis' son as a model. A special meeting will be held on July 23rd at the home of Mrs. F.J. Jackson for material designs and pattern suggestions.

Among those we know who attended the Calgary Stampede last Friday were Mr. and Mrs. Ben Kersch and Grace Moore, Mr. and Mrs. D. Herbert; Mr. and Mrs. J. Bathers; Mr. and Mrs. J. Schrader; Mr. and Mrs. H. Jackson and Barbara; Mr. and Mrs. F. Jackson and Phyllis; Mr. and Mrs. A. Buckley; Norm and Pat; Mr. and Mrs. M. Moore; Mr. and Mrs. Homer Moore and three children; and Mr. F. Moore.

Mr. George Jackson of Manville, Alberta, was visiting in the district last week end.

The Eagle Hill-Waterside and Westerdale baseball teams played a friendly game on Sunday last with a good crowd of spectators attending. Westerdale lost by a score of 4-2. This game completes the league schedule. The playoffs begin next Sunday when these two teams play at Waterside.

Mr. Wm. Moore celebrated his 60th birthday yesterday held in his home at the home of his son and last Sunday evening. His three sons and daughters were present, also a few neighbors and friends.

## NOTES FROM THE EAST

The Lone Pine W.I. met on Wednesday last at the home of Miss Myra Hughes with one of the smallest attendances in nearly two years, the Calgary Stampede being the cause of so many absences. An outfit for a two year old boy was handed in and is to be sent to the Exchange. It was decided to have the outfit be sent to the Olds Farm Women's Week meeting. Harry Richardson and Miss Myra Hughes.

A pleasant afternoon closed with a delicious pot luck lunch served by Myra and her sisters as hostesses. The next meeting will be held at the home of Mrs. Sam Elliott.

Miss Steeves, Burnside teacher, and Miss Megli of Sunnyslope are attending summer school at Edmonton.

Mr. Sandy Brander and Roy Dowell joined the Odd Fellows Lodge at Sunnyslope last Thursday evening.

Mr. Sandy Brander and children returned from a two week's vacation at White Rock, B.C. with Mrs. Brander's folks.

Bill Persinger spent Tuesday afternoon with his sister Mrs. Ivan Wehrle. He is now working for Eddie Cullen.

Mrs. Gordon Rathbun went to Calgary recently to meet her husband who has just returned from overseas. Welcome home Gordon. Mr. and Mrs. Rathbun expect to remain on the Bittner farm for the time being.

Eddie Cullen and Hank Campbell are on Sunday for B.C. and Okanagan, Washington, where they will spend a two week's holiday.

Mr. Isobel McCulloch and family of Turner Valley are visiting with friends in the East district.

Mrs. Albert Cluney of Vancouver who has been visiting her parents Mr. and Mrs. Schumacher and relatives has returned to the home on Wednesday last.

Miss Florence Cullen and Mr. and Mrs. Tom Taylor are visiting in B.C. and points in the States.

J.D. Thomas spent the week end with Mr. Fred Metz and family. While visiting, they celebrated his birthday and attended the Anglican church service at the Mississauga school.

Mr. Hugh McLean was a Sunday dinner guest at the home of Mr. and Mrs. W.H. Coates.

Mr. and Mrs. Harry Coates of Wardlow attended the Calgary Stampede and plan to visit with their mother on the way. Mr. H. Coates and Mrs. M.R. Coates spent the week end with Mrs. D. Milne.

Miss Jean Coates and Dwayne Fobes spent three days in Calgary Stampede week, visiting with Mr. and Mrs. Fred Fobes.

Harold Shells and Leslie took to the Stampede for a day.

Mr. and Mrs. Bruce Shells and family attended the Stampede on Friday and continued on to Banff for the week end.

## BURNSIDE NEWS NOTES

LAC Brian Price who is stationed at Edmonton was visiting at home during the week and took in the Calgary Stampede. Mike, Derrick and Jeffrie also went down on Friday and had a good time.

We are sorry to hear that Mrs. Birdale was removed from her Sunday afternoon suffering it is feared from a severe attack of pleurisy. We wish her a speedy recovery.

Oswald Jenkins took in the Stampede on Saturday.

Mr. and Mrs. J.C. McCulloch and Mr. Isobel McCulloch of Turner Valley were also Calgary visitors during the week.

Pat Sprags' gravel pit is working under full pressure these days. A large excavator lifting about a cubic yard at a time is working ceaselessly, loading ten large trucks with gravel and hauling gravel to the gravel road on Sunnyslope to Wimborne.

Quite a few travelled to Calgary take in the Stampede including "Spud" Don and Jim Frizzell and Brian Nelson. (Brian says tires are hot to go.)

Some local folks are bragging that they have a gravel highway all the way to Calgary.

On Saturday afternoon a severe electric storm accompanied by a torrential downpour fell in this particular area. One man was mortally wounded out by lightning and the power plant of the Sunnyslope garage was put completely out of commission.

Mr. Todd visited her young granddaughter at the Holy Cross hospital during the week. The little one, who was operated on for a ruptured appendix, is now making rapid progress.

—

## INVERNESS NOTES

With more favorable weather there will soon be Saskatoons, although some of the bushes were frozen out in May.

Mr. and Mrs. Schumacher are coming along fine and there should be a bountiful crop of them.

Among Inverness people attending the Stampede in Calgary last Saturday were Mr. and Mrs. Ed Bersch, Mrs. Sidney Wright, Lester Lefman and Mr. and Mrs. Louis Lund.

## IMMIGRATION

Canadian government immigration controls will be eased to allow European relatives of Canadians to come to the Dominion. However, guarantees must be given that the immigrants will be admitted by their Canadian relatives, if need be. Under government regulations a farmer with sufficient means to earn in Canada may be permitted to enter the Dominion.

IS EVERYTHING READY  
FOR THE TRIP ?

You are ready of course. Your wife and children are ready, and you have probably planned every step of your journey. But—

## IS YOUR CAR READY ?

After all, your car is the most important thing to consider. You depend upon it to get you from here to there and back again. Maybe it will and maybe it won't. It depends upon the condition your car is in when it starts out. To make sure everything is all right, let us give your car a thorough inspection, right now so that repairs may be made if necessary. Anyhow, just drive around and let us listen to it. It will not cost you a cent.

AND A SPIRITUAL APPETITE

Travel 37 miles North from Calgary to Carslair, turn straight West and 19 miles farther on is Cremona. The Camp Meeting is being held at Larratt's Place, which is 1/4 mile South

## WORLD HAPPENINGS BRIEFLY TOLD

Dr. Eduard Benes was unanimously re-elected president of Czechoslovakia.

N. M. Bentley of the Alberta school of agriculture, Vermilion, was elected president of the western Canadian society of agronomists.

Wu Yen-sun, founder of the Chinese republic, was unveiled at the London boarding-house where he once stayed.

An estimated 900,000 unemployed persons in metropolitan Tokyo are to be registered and classified in the expectancy of the reopening of peacetime industries in the near future.

The British admiralty ordered the preservation as a memorial of "D-Day" the huge map used by the Allied officers to direct the invasion of Europe June 6, 1944.

Senator L. M. Gouin (L., Quebec) called for special study by a select committee of how much should be made into an adequate and appropriate holiday designed to further national unity.

Herbert Hoover reported an improvement in the world food outlook as a result of Latin American co-operation in making available \$800,000 extra tons of cereals and beans for the next few critical months.

Canadian servicemen in the United Kingdom and Europe totalled 28,832 at June 1, it was reported in information tabled in the commons. The army had 23,886, the navy, 475 and the air force 4,771.

### Ice Cream

#### Form Of Seaweed Is Said To Enter Into Its Manufacture

Did you know that seaweed goes into the manufacture of your favorite ice cream?

This fact, however, is not as startling as it sounds. Sodium alginate, a chemical product derived from certain species of seaweed, is used in the manufacture of Eastern Canada, California, Ireland and Scotland, forms an important ingredient of ice cream, according to an article in the current issue of C-I-L Oval.

A number of varieties of alginate products are derived from seaweed and gives different properties to the alginate acid or alginate made from it. The properties of the alginate manufactured from one weed species, however, are consistent and exactly reproducible, the article states.

Alginate is used whenever elastic strength and geling properties are required—such as ice cream, chocolate milk and cold milk custards. These "seaweed" delicacies taste no different from those made with gelatin.

The article forecasts wide industrial use of alginate in textiles, paper coatings, transparent plant, cosmetics, pills and insecticidal compositions.

### Increased Yield

#### Rust-Resistant Varieties Of Wheat Have Paid Big Dividends

Manitoba produced 15,000,000 more bushels of wheat last year as a direct result of growing 2,000,000 acres of rust-resistant varieties. Dr. W. F. Hanna, chief of the Dominion plant pathology laboratory at Winnipeg, told the Canadian Seed Growers association.

Similar figures could be quoted for Saskatchewan yet the entire cost of the rust research program for the last 20 years did not exceed \$2,000,000.

Commenting on the reported exodus of Canadian trained personnel to the United States, Dr. Hanna said that unless more money was provided for research and research workers, progress was bound to be stifled.

### Thanked For Help

#### Britain Appreciated The Efforts Of Canadian Women Said Viscountess Alexander

Large supplies of oranges and milk, large newspapers and envelopes which were used only once are details of Canadian life which impress anyone arriving from Britain. Viscountess Alexander said in speaking to the Ottawa Women's Canadian club.

The Ottawa General's wife thanked the women of Canada for their help to Britain during the war. The Red Cross had helped to finance 100 war nurseries, the Junior Red Cross had sent comforts, the I.O.D.E. had sent clothing, the Kinsmen club milk and the Queen's Canadian Fund kitchen utensils and household goods.

### JOY SHORT-LIVED

Home folks like to tell you, is where the heart is. And—in that case—Tom Jenson of Stoughton, Wisconsin, was living in his mouth. He drove out on the edge of town to look at his newly completed house. It was beautiful, though what with green shutters. New pine trees in the front yard. Everything wonderful ... until Jenson peered around and noted the house was standing on someone else's property.

The use of pigeons as messengers goes back to 3560 B.C. 2679

WRECKAGE IN WAKE OF TWISTER AT WINDSOR TAKES QUEER SHAPES—Queer tricks were played by the twister which carried wreckage and debris for miles from the stricken area. This unusual setting for a piano doesn't seem to bother the calf which calmly continues grazing. Some animals were up to knees in water.

### Making Progress

#### Vancouver Ex-Sailor Getting Along Fine On Canoe Trip

THE PAS, Man.—Tanned, quiet-spoken, O. P. Smith, Vancouver, arrived in the Canadian Rockies from River town, 500 miles north of Windsor, his canoe trip from Vancouver to New York half completed.

The middle-aged ex-sailor placed his 16-foot craft in the Fraser River April 11 and proceeded via the Peace, Athabasca and Saskatchewan Rivers, through the Rockies, to the Yukon, from the Mayor of Vancouver, addressed to O'Dwyer of New York, and he expects to deliver it within two months.

Mr. Smith plans to travel down Lake Winnipeg to the Winnipeg River, strike east towards Lake Nipissing, then cross southern Ontario to the Erie Canal. From New York, he may make a side trip to his birthplace at Calro, Ill.—by canoe, of course.

### Attract Tourists

#### Wins First Prize For Best Travel Exhibit At Minneapolis

First prize for the best travel and tourist exhibits at the 13th annual Northeast Sportsmen's Show was won by Mr. and Mrs. L. A. Lambrecht, last April 11, by the Canadian Government Exhibition Commission, Leo Dolan, Canadian Travel Bureau chief, announced.

He estimated the exhibit, which already has been shown at Cleveland, Chicago and Milwaukee, will be exhibited at 10 more cities in the United States.

Mr. Lambrecht said that this year's exhibit was the best ever, and the prospective American tourists this year. A section of it was on display at the Kwanzaa International convention in Atlantic City.

### CEMENT SHORTAGE

CALGARY.—The Calgary Albertan said in a newspaper story that a cement shortage has all construction in the city at a standstill.

### REG'LAR FELLERS—Experimental Station

### Flax Seed Production

#### The Need For Flax Seed Still Is Urgent

Canada produces an excellent quality of flaxseed for all purposes but history shows that its production in the Dominion has been more or less a sporadic undertaking. Production dates back to pioneer days, when 54,650 pounds of flaxseed were produced in New France in 1720. In 1864 production was stimulated at Baden, Ontario, by the preparation of flax seeds for export to Europe. Canada. An area of over two million acres was grown in 1912 which, declining sharply during the First World War and post-war period, had fallen to a low level in the Thirties. In 1933 the flaxseed acreage and production dropped to the lowest point in history. In 1934, 1,000 acres were sown, amounting to 213,000 acres and the production to 632,000 bushels. At the outbreak\* of the Second World War Canada was still on an import basis as regards flaxseed.

Soon after 1939, a shortage of oilseed developed and supplies of linseed were restricted to oilseed production in normal periods. In order to stimulate production, the government set a fixed price of \$2.25 per bushel with no quota restricting the delivery of flaxseed. Production reached a new peak in 1943 when 2,947,000 acres were sown and the production of 1,700,000 bushels was declared to be of urgent need. The fixed price was advanced to \$2.75 per bushel for the 1944 crop and \$3.25 for the 1945 crop. However, the 1944 crop was reduced to 9,668,000 bushels and in 1945 dropped further to a little over seven million bushels.

The history appears incidentally in "The Production of Flaxseed in Canada" by W. G. McGregor, Cereal Division, Experimental Farms Service and is published by the Dominion Department of Agriculture. In this publication (No. 545) important information is given about all phases of flaxseed production, including the seed flax as compared with other crops where flax may be grown, seedling, flax, harvesting, weed control, varieties, disease control, and insect pests. The market and the encouraging outlook for flax is also dealt with. A copy of the publication may be obtained by writing to Dominion Department of Agriculture, Ottawa.

### Western Coal

#### B.C. And Alberta Mines Can Supply Millions Ton For Central Canada

The British Columbia Government mines department officials expressed the belief that British Columbia and Alberta coal mines could supply 1,000,000 tons of coal for central Canada but the shipments by rail would not be economical.

To meet an emergency situation in the east, the Dominion Government expressed hope that 1,000,000 tons of eastern coal would be available for Ontario and Quebec this winter. Officials said the supplies would come mainly from Alberta and British Columbia.

### To Feed Right—Eat Right

### Alberta Coal

#### Discussion On The Moisture Content Is Settled

In the discussion which has been going on about Alberta coal, there has been some very dogmatic opinion given. It is believed that the heavy moisture content of Alberta coal makes it unfit for long haulage and storage in Ontario. One grade of coal from Alberta is said to run as high as 15 per cent. in moisture content which is five times that of the coal from Pennsylvania.

There is an interesting letter on this subject in the Toronto morning paper from E. S. Clarry, Trade Commissioner of Alberta. He points out that domestic coal is now being shipped to Ontario from the Mountain Park area Alberta, which has a moisture content of 1½ per cent. and only one per cent. Mr. Clarry does not deny that some grades have a heavy wetness, but compares these grades to about the worst we get from Pennsylvania, and not infrequently at that, as many consumers know, better than the American coal, according to the Commissioner, if moisture content is the yardstick.

Production is not great enough at the present time to permit the shipment of large quantities to Ontario. The coal is there, however, in superfluous quantities. What is the moral? During the war with the enemy threatening the gate, we had a government performing a Herculean task and veritably moving mountains. Now the same government cannot move coal, Canadian coal, to the hard-pressed consumers of central Canada. What is the moral? In the opinion of the Commissioner, if moisture can be subsidized with public money, there is a strong case for the development of the hard coal resources in the West, lying now virtually untaught as far as Ontario is concerned. As things are, ten shiploads of Welsh or Scottish anthracite, or even coal from the United States in the Homer dock area, would be a reassuring sight for consumers in this district. The condition for the coming winter points to stringent shortage, because of strikes in mines and water transportation, and also higher costs. Coal is one commodity on which we are at a disadvantage. Board must maintain the ceiling price, although inevitably it will be a higher ceiling—St. Catharines Standard.

### Used Imagination

#### Farm Boy Opened Up New Market For Electric Drills

A young Colorado farm boy with imagination a sales manager should consider brought in new income to his state and country. He has opened a new market for electric drills.

The boy equipped a drill with a special arbor and fast pad to polish apples; now farmers have copied his stunt, get higher prices for their clean, high-sheen apples. The drills have become agricultural implements without a nickel of promotion—Modern Industry.

Bread baking is one of the most ancient of human arts.

DATED this 6th day of July, A.D. 1946.  
H. LYNCH STAUNTON,  
Didsbury, Alberta.  
Solicitor for the Executors.

Doctor Ramsey, Chiropractor, (Palmer Graduate) wishes to extend to you a complete chiropractic service in his Olds office. X-ray service. Specializes in Foot, Stomach, Glands and Eye Troubles. Office open on Monday, Tuesday, Friday and Saturday.

Plow Share Edges stocked at Cassidy's.

Mr. and Mrs. Tom Peterson and son Manci of Craigmyle visited relatives in Didsbury for a few days before proceeding to Sylvan Lake for a holiday.

Mr. and Mrs. J.V. Berscht and Jean returned home on Wednesday from a vacation spent at points in the United States, travelling as far south as Los Angeles.

Just arrived at the Builders' Hay Carriers, Track and Slings.

The Misses Joyce Novakuse, Lulu Collinge and Messrs. Willie Novakuse and Clifford Lemke took in the Stampede on Wednesday, going for an airplane ride while there. They continued on to Banff and other points in the Rockies, spending the remainder of the time there.

Mrs. Hilda Primrose and Mrs. Studer spent last week at Medicine Hat visiting Mr. and Mrs. H. S. Beverson.

A 5-horse air cooled engine, weighing less than 100 pounds now on sale at Cassidy's.

Miss D. Black, her sisters Helen and Jean, and her brother Jimmy visited in Didsbury on Tuesday. Their father, the Rev. James Black, was the Baptist church minister in Didsbury in the early pioneer days of the town. While here the family visited the graves of two young sisters.

### SAFETY FIRST! ON THE FARM

Each year hundreds of farm accidents occur. While many of them are minor accidents, others result in serious injury and even death. Last year in Alberta there were 13,000 farm accidents, 1,000 of which were caused by tractor alone. Here is an opportunity for a wide educational campaign to instill the idea of "Safety First" on the farms. Never take a chance. A little precaution may prevent serious injury and even death.

### SERVICES AT NEW BERTHATH

The Young People of the New Berthath Mennonite Church will hold their regular English service on Sunday, July 21st at 8 p.m.

The guest speaker for the evening will be Rev. Michael Billester, missionary, Evangelist, author and world traveller. All are welcome to attend the service.
